## BW-04010

BW-04010 electronic lock has been designed to adapt to existing mortises and modernize doors, providing them with a comfortable and safe access control system.

Its remote management systems makes the electronic hotel lock BW-04010 a perfect lock for small hotels, hotels without a 24h reception rural houses or decentralized tourist accommodation.

Once the reservation is confirmed, the hotel sends an electronic key and/or a code to the guest with validity as contracted on the reservation.
